H. E. DONALDSON,

THE WONDERS OF A WATCH.

Very few who carry a watch ever think of the unceasing labor it performs under what would be considered shabby treatment by any other machinery.

There are many who think that a watch ought to run for years without cleaning or a drop of oil. Read this and judge for yourself. The main wheel in an ordinary American watch makes four (4) revolutions a day of 24 hours, or 1,460 in a year. Next the center wheel 24 revolutions in a day, or 8,760 in a year. The third wheel 192 in a day, or 259,080 in a year. The fourth wheel 2,440 in a day, or 545,600 in a year. The fifth, or escape wheel 12,960 in a day, or 4,728,300 in a year. The ticks or beats are 388,800 in a day or 141,812,000 in a year.

—The eleventh annual camp meeting of the Mississippi Valley Spiritualist Association will be held at Mt. Pleasant Park, Clinton, Iowa, commencing Sunday, July 30, and closing Sunday, August 27th, 1893.

—During the fire in opera house block Tuesday evening, the end of a large counter was dropped on the foot of M. Maloney, who was assisting in removing some of the valuables from the building. The result was an injury to one of his great toes which yesterday made necessary the extraction of the toe-nail.

—Sam Wolford, driver for Alonzo Gage, last night at 1:30 drove into a trench left open by the City Water Company, near W. B. Talcott's residence in West Dixon. There were four passengers in the hack and all escaped injury. One of the horses was killed. A red lantern was placed at the center of the drive-way, but the young man turned out on the wrong side. The city street light at the corner had been blown out by the wind; the glass frame being broken.

—When all is hurley-burley and excitement among men, such a condition as we find when a conflagration is threatened in a city, then it is that you will observe among the excited mass, now and then, one who has with him at all times his nerve; his equiponderate self-possession, that marks the person as being made up of different composition from that found in his neighbors. Now, there was Mr. A. J. Brubaker who, when one end of the opera house was filled with fire and smoke, and clerks and letter carriers were excitedly preparing to save the mails from the approaching fire, calmly walked in at the back door of the postoffice and with an equipoise similar to that he enjoys when going into a barber shop for a shave, quietly asked for any letters of his that might be threatened by the devouring element.

—As an appreciation of the service rendered by the Hose Company in the prompt extinguishment of the fire on the evening of the Fourth, the Opera House Company yesterday placed with the foreman its check for $25. Such recognitions, infrequently as they occur and of trifling amount, cannot be considered as compensation for benefits rendered, but are received, as they are intended, as grateful recognitions of obligation to an organization of men who voluntarily risk their lives in the preservation of public and private property. In cities having a salaried fire department, giving no better service than is rendered in Dixon, the expense of its maintenance is added to the burden of taxation. In our case the men engaged give more than money; and in some instances that which money can neither purchase nor replace. In two instances at least men have lost their lives and others have sustained permanent physical injuries in fighting the flames that threatened a conflagration of our city. These sacrafices, and the minor ones of exposure, exhaustion and fatigue, can never be fully appreciated, and words of criticism should always be drowned in a universal chorus of commendation of the brave boys who are ready at all hours to stand as a wall of protection between our homes and the most fearsome of all destroyers.

THE DIXON COLT WINS.

A Wonderful Little Mare Is Image Worthy of Her Sire, Delmarch.

Great is "Image" and Wm. B. Page is her prophet, with profit. At the Indianapolis races yesterday the little bay beauty won three out of four heats, with six entries, and stood second in the first round; taking the three last. Time: 2:30, 2:21¼, 2:24¼, 2:26.

The result thereof is that "Image" is a valuable mare, and it also adds to the value of her sire, Delmarch, several thousand dollars; we will not attempt to state how many. The Autocrat family of horses may come in also for their share of glory won by Image as she is of that blood on the side of her dam. The indications are that Mr. Page's colt has a brilliant career before her, if nothing unusual happens. "Image" is a marvelous three-old filly. She weighs only seven hundred pounds; stands fourteen hands and was the youngest horse of the six in the Indianapolis race yesterday. This is only her second trial of speed in a public contest. We are informed that Image lost the first heat by being unsteady; her driver, the famous Budd Doble, not desiring that the colt's full speed should be exhibited at the outset of an important race. It is reported that "Image," with the true instinct of the ambitious racer, did not, however, propose to be held back in the race, and when her driver undertook to impose such humiliation upon her, she was mad; shook her head in rage and in her passion broke into a run, and before her driver could calm her volting ambition "which o'er leaped itself," she did not recover from the break and thus lost the first heat. But she had the satisfaction of distancing three competitors in the three following heats. We would not criticise such a famous jocky as he of whom New England's great poet, Oliver Wendle Holms, wrote years ago in his discription "How the Old Horse Won," for then

"Budd Doble's catarrhal name
Filled the nasal trump of fame."

A remarkable incident of the race at Indianapolis yesterday was that three of the entries were of Hambrino stock: Son, daughter and grand-daughter, Image being the latter. It appears that the grand-daughter (and daughter of Delmarch) was the favorite in the race from the start. This colt was raised by Will VanEpps Steet and sold to Mr. Page for five hundred dollars when a mere colt.

—Miss Lizzie Warren is enjoying a visit from her sister, Anna, of Macomb, Ill The young lady is on her way home from a three months visit at the World's Fair.

—Insurance adjusters, W. A. Lyon, of National Fire Insurance, and Mr. White, of Glenn Falls companies, are here from Chicago to estimate the damage done to E. Edelstein's stock.

—Mrs. Peter Coffey wishes through the medium of THE EVENING TELEGRAPH to express her sincere thanks to the many friends and neighbors for kindness shown during her late bereavement.

—Quite a strip of the eastern portion of our city, south of the river, belongs in School District No. 5, and the children therein should be credited to the North Side. No census of that district has yet been taken, but we are informed that in the South Side school census, published recently, the children in this section, belonging to District No. 5, were counted to District No. 1.

—Some reckless brute at Freeport on the night of the Fourth, who had probably imbibed too much liquid patriotism, went through a crowd of persons, firing a revolver at the houses right and left. Two of the bullets lodged—one in the ankle of a boy, the other passed through the calf of a young man's leg. A fatal accident happened at German Valley, a Freeport suburb, on the same evening; an exploded skyrocket striking a three-year-old child on the head and crushing its skull. A heart-rending accident happened at Plato Centre, between Freeport and Chicago. Some one threw a bunch of firecrackers into a wagon, which caused a runaway and a collision with a buggy in which were seated a young farmer and his wife and baby. The wagon pole impaled the farmer; he and the child were instantly killed and the wife and mother as instantly became a raving maniac.

Your Painter

has often wasted time and material in trying to obtain a shade of color, and has even resorted to the use of ready mixed paints, the ingredients of which he knew nothing, because of the difficulty in making a shade of color with white lead. This waste can be avoided by the use of National Lead Company's

Pure White Lead Tinting Colors

These tints are a combination of perfectly pure colors, put up in small cans, and prepared so that one pound will tint 25 pounds of Strictly Pure White Lead to the shade shown on the can. By this means you will have the best paint in the world, because made of the best materials—

Strictly Pure White Lead

and pure colors. Insist on having one of the brands of white lead that are standard, manufactured by the "Old Dutch" process, and known to be strictly pure:

"Southern" "Red Seal"
"Collier" "Shipman"

These brands of Strictly Pure White Lead and National Lead Co.'s Pure White Lead Tinting Colors are for sale by the most reliable dealers in paints everywhere.

If you are going to paint, it will pay you to send to us for a book containing information that may save you many a dollar; it will only cost you a postal card.

SEETHING FLAMES.

They Lick Up the Lives of Six Unfortunates.

BURNING OF A STEAMBOAT HOTEL.

Twenty Others Seriously Injured in Escaping—Only Nine Rescued Alive From the Thorne Hill Mine in England—Eighty-Eight Bodies Recovered—A Little Child Crushed to Death Under a Street Car—Grip Motor Runs Away at Gotham.

ST. PAUL, July 6.—The big steamer Bethel, anchored at the foot of Sibley street, and used for the past three years as a lodging and boarding house for about 200 poor people, has been burned to the water's edge. At the time the fire broke out there were fifty persons asleep on the Bethel. So rapid was the progress of the flames that those aboard the boat had to jump for their lives in their night clothes. The steamer Sydney was tied to the Bethel, but by quick work in cutting her hawser she was floated down stream uninjured. The loss on the Bethel is $10,000.

Six Deaths Already Reported.

It is known that at least six persons were burned to death. Three bodies have already been recovered—those of Mrs. Peak, matron of the Bethel, and those of an unknown man and girl. Miss Lulu Morgan, a girl of 12, daughter of Rev. David Morgan, pastor of the Bethel, was taken to the city hospital in a dying condition. The bodies of two women are still in the hull of the boat. When the second story of the boat fell in they were seen to fall, clasped in each other's arms, into the seething cauldron of flames. The fire was caused by the explosion of a lamp in the wash room.

Twenty Persons Severely Injured.

Five engines were at the fire within three minutes after it broke out, but their work was of little avail. A lot of kerosene had been allowed to leak down the sides of the boat near the wash room and the great vessel burned like tinder and was soon in complete ruin. At least twenty people were seriously injured by jumping. Miss Gertie Peck was horribly burned and bruised. Pat Ryan was burned about the face and breast and received bruises about the hips in jumping. A dozen cars of the Chicago, Milwaukee and St. Paul railway standing near the fire were burned. A large number of those who jumped into the river were saved by the Gracie Mower, and the Sydney was towed up in the neighborhood of the wreck and a number of the homeless given shelter for the night.

THE THORNE HILL PIT HORROR.

All Except Nine of the Miners Caught by the Flames.

LONDON, July 6.—The rescuers at work in the Thorne Hill pit have brought eighty-eight bodies to the surface. Two men were brought up in an unconscious condition, but still breathing. The physicians who have been around the pit-mouth nearly all the time since the accident at once took them in charge and hopes are entertained that they will recover. Six men who had sustained no injury whatever, but had been imprisoned behind a huge mass of debris were dug out. When they appeared at the mouth of the pit they were greeted in a most touching manner by their relatives and friends.

Altogether eight men and a boy have been rescued alive from the mine. All hope for the others in the pit has been abandoned. The bodies of the victims are being rapidly brought to the surface. The scenes at the mouth of the pit as the bodies are brought up and recognized by the relatives and friends of the dead are most distressing. No reason has been given for the explosion, but the conjecture is that it was caused by carelessness on the part of one of the miners in opening his lamp.

THE MOB SPIRIT ONCE MORE.

It Wants to Commit Murder As Penalty for an Accident.

BUFFALO, July 6.—A most exciting incident was witnessed at the corner of Sycamore and Adams streets, where trolley car No. 208 made mince meat of a baby, and an enraged mob of 600 wanted to make mince meat of the motorman. Car 208 was filled, and so was its trailer. On approaching Adams street the motorman saw a baby start from its mother's side at the curb to run across the street directly in front of his car. He yelled and jammed down the brake, stopping the car within its length. The drawhead struck the baby's head, splitting its skull and throwing the body under the wheels, where it was cruelly mangled.

The inevitable mob spirit was up in an instant; nobody asked where the blame lay. Crowds gathered from all directions, and when the policeman on the beat arrived they had surrounded the car and men had mounted the car, shouting "Kill the wretch," "Tear him to pieces." The motorman, Jacob Luksch, shut himself in the car behind locked doors to escape their violence. The policemen sent in an alarm and a patrol wagon load of police finally rescued the motorman and took him to the station.

And all this time the babe's mangled body lay on the rails.

The coroner investigated the case, found it an unavoidable accident and discharged the motorman.

GRIP CAR ON THE RAMPAGE.

Can't Let Go of the Cable and Plays Havoc With Things.

NEW YORK, July 6.—A cable car became unmanageable on Broadway in front of City Hall park and started on a rampage toward the Battery. The mortorman was unable to release the grip and under the circumstances the brake became useless. In front of the postoffice the runaway car crashed into the rear platform of a horse car ahead. The driver of the horse car with commendable presence of mind reined his horses to one side, just in time to save them from being run down.

Both horses were thrown to the street and the traces were torn away. The driver escaped with slight injuries. Still the cars rushed on, plowing through trucks and knocking down horses. In front of St. Paul's church yard there was a block on Broadway and the drivers of trucks were unable to save their horses and wagons. When the cars had cut a passage through the block seven horses were hors du combat and about five wagons were badly damaged. The cars with their frightened load of passengers were finally stopped near the battery.

SLAVES OF THE COMBINE.

Justice Brewer's Idea of Labor and Business Unions.

WOODSTOCK, Conn., July 6.—In his address on "Individual Liberty" at Roseland park on the Fourth Justice D. J. Brewer, of the United States supreme court, said: "Where is the individual laborer who dares assert his liberty and act as he pleases in the matter of work; where is the individual contractor or employer who can carry on his businsss as he thinks best? In the ante-bellum days we all remember how slavery was defended on account of its benefit to the slave. But is servitude to a single man less of slavery than servitude to an organization?

"Is it not time that the dormant energies of our nation were aroused and a speedy and summary stop put to every such trespass on any man's liberty? Are we going to drift along until this contest ends in a bloody struggle? Must our children pay for securing the real liberty of each individual the price thatthe nation paid a score of years ago to abolish human slavery? Is Governor Altgeld waiting to be the Jefferson Davis of tomorrow?

"The business men are becoming the slaves of the combine, the laborer of the trades union and organization. Through the land the idea is growing that the individual is nothing and the organization and then the state is everything, and we have the fancy sketch of the dreamer of a supposed ideal state in which the individual has no choice of lot or toil, but is moved about according to the supposed superior wisdom of the organized mass, and this, we are told, is the liberty for which the ages have toiled and for which human blood has crimsoned the earth. As against this servitude and sacrifice of individual liberty I wish to enter my earnest protest."

REMARKABLE FREAK OF LIGHTNING.

A Painted Letter Laid on Its Side but Not Loosednd.

CHICAGO, July 6.—Lightning played a carious freak recently in the drug store at the sharp corner of North Clark and Center streets. Just before the storm the letters of the sign on the electric arc-light globe were upright and in the place assigned them by the painter. After the storm the first letter in the word "Houston" was turned from the perpendicular to the horizontal, thus ═, and dropped at last two inches below the line of the other letters.

It was not roken nor cracked, nor was any other letter disfigured. The shifting of place did not lessen the letter's hold on the porcelain globe, and so far as can be seen the electric current had no effect on the globe itself. The happening is inexplicable to the druggist and to all other persons who have heard the story and seen the misplaced letter.

Chicago Hotel Business Overdone.

CHICAGO, July 6.—Mandel Bros. have filed a bill in the circuit court asking that a receiver be appointed to take charge of three hotel establishments, levied on Monday to secure a confession of judgment for $13,321 by Arthur V. Lee. The hotels are the Pullman, the Inverness, and the Harvard. All three hotels were established by Lee to accommodate guests visiting the World's fair, but the bill sets out that business has failed to meet the proprietor's expectations.

A Pueblo National Bank Closed.

PUEBLO, Colo., July 6.—The American National bank is closed. Notices on the door state that the bank will resume as soon as it can secure money on its paper. The suspension was a general surprise and a large number of depositors will have to wait a couple of weeks for their money. The bank has assets of over $1,250,000, yet could not get hold of sufficient currency on any terms to keep going and closed in order to give everybody an even chance. Liabilities, including deposits, are $635,000.

Will Undoubtedly Be Trouble for Leon.

COLUMBUS, July 6.—Frank Van Leon, the Columbus Grove bank robber and murderer, to be executed in the penitentiary tonight, has not eaten anything for two days, and either in a fit of madness or playing crazy, has broken his bedstead and thrown it out of his cell. He also pounded the wall with his fist, and sprained his hand badly. He is a big man and powerful and active. Trouble of some kind is expected at the execution.

Loan and Trust Company Fails.

OMAHA, July 6.—The American Loan and Trust company of this city, O. M. Carter, president, and C. S. Montgomery, vice president, has gone into the hands of a receiver at the request of the stockholders. The company has a paid up capital of $400,000, has done a good business and has been considered a sound institution. The cause of the failure was the failure at Houston, Tex., of the Omaha & Houston Improvement company, a town development enterprise.

Got That Ohio Embezzler.

DENVER, July 6.—George W. Stage, ex-city clerk of Painesville, O., who is alleged to have absconded from that city with $10,000 of the city's funds, has been arrested here. Stage took his arrest very coolly, and voluntarily confessed his embezzlement. When captured he carried on his person much evidence of his crime. A huge pocketbook was literally bulging with money.

German Reichstag in Session.

BERLIN, July 6.—The German reichstag was opened by Emperor William, who made a speech in which he declared that to strengthen the army was absolutely necessary for the safety of the empire and the peace of Europe, and that the kaiser trusted that the patriotism and self-sacrifice of the members of the new house would not fail him and his allies.

New Champion Runner.

BOSTON, July 6.—In the long-talked-of international two-mile foot race between Tommy Conneff, the deposed amateur champion, and George W. Orton, champion of Canada and America, at the Suffolk Athletic club's sports, Conneff won in 10 minutes, 2e-5 seconds. Orton was beaten at the fourth lap and dropped out of the race.

Oscar Neebe Visits the Socialists.

CHICAGO, July 6.—The socialist convention has adjourned sine die. Shortly after the call to order for the last session Oscar Neebe, the recently pardoned anarchist, entered the room. He was greeted with cheers, whereupon Mr. Neebe said "thank you."

Secretary Carlisle at Chicago.

CHICAGO, July 6.—Secretary Carlisle has arrived in Chicago and will remain here ten days on a midsummer vacation. He is accompanied by Mrs. Carlisle. The secretary refuses to discuss finance.

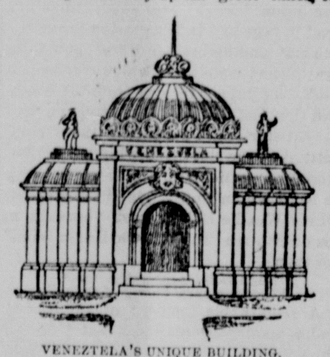

CARAVELS COMING.

Welcome Prepared for the Ships of Columbus.

EXPECTED AT CHICAGO TOMORROW.

Description of Venezuela's Pretty Building—That Enemy of the "Demon" Gets Off Very Lightly—The Vice President Has a Pleasant Day at the Fair—Sensational Scene at Hagenback's Circus—Doings of the Management.

CHICAGO, July 6.—Elaborate preparations are being made to receive the Columbus caravels which are expected to arrive in Chicago tomorrow. The caravels have made the voyage from Spain under the command of Captain Victor Concas, of the Spanish navy, and are now slowly wending their way up the great lakes to

VENEZTELA'S UNIQUE BUILDING.

Chicago. The naval parade of Friday will be under command of Captain Berry, of the revenue cutter Michigan, and it is expected that a fleet of twenty-five or thirty vessels, and a large number of excursion boats will go up to Evanston to meet the caravels and escort them to the exposition grounds.

Entertaining the Vice President.

Vice President Adlai Stevenson spent an enjoyable day at the fair as the guest of National Commissioner Oscar B. Hundley, of Alabama. Director General Davis tendered his private launch to Mr. Hundley for the day, and a party composed of Vice President and Mrs. Stevenson, Commissioner and Mrs. Hundley, Governor and Mrs. Prince and Mrs. F. L. Albright (of New Mexico). Mrs. Bruce Douglass and Mrs. J. W. Thomas (of Nashville), Commissioner C. K. Holliday (of Kansas), and Hon. B. M. Allen (of Birmingham, Ala.), embarked from Electricity building. The party went about the lagoons and cruised out upon the lake to the battleship Illinois. Here an informal reception was tendered the vice president by the officials in charge of the vessel, and a salute of twenty-one guns was fired in his honor. After the party returned to the grounds they were entertained at luncheon by the vice president at the "Clam Bake" on the lake shore.

Venezuela's Pretty Headquaters.

D. Fancisco E. Bustamenta, minister from Venezuela to the United States; Dr. H. Rivero Saldivia, consul general, and Dr. Manuel P. Toledo, commissioner from the republic of Venezuela spoke at the opening of the Venezuela pavilion. Consul General Saldivia complimented the executive commissioners on the result of their work. He referred to the civil war through which the Venezuelan republic had recently passed, temporarily prostrating the commercial activity of the country. Venezuela, phoenix-like, had arisen from its ashes. The consul general referred to Washington and Bolivar as the fathers of their countries, the greatest general the American continent had produced. Venezuela celebrated the eighty-second anniversary of her independence and in her name he extended a welcome to the nations of the world.

Description of the Structure.

The outer walls of the structure are covered with ivies and vines, which form a contrast to the delicate tints with which the whole is painted. Beautifully located, the interior is even more charming. The high walls are hung with oils which one would hardly think could come out of Venezuela. The statues of Columbus and

ENTRANCE TO TURKISH THEATRE.

Bolivar outside the building designed by A. M. Turini are made of bronze and are considered among the finest pieces of statuary on the grounds. The exhibit rooms contain splendid displays of copper ores, gold quartz, coffee, cocoa beans, cocoanuts and other products of the sort. All go to show the wonderful undeveloped resources of the South American republic and it is a most excellent display when the size of the country is taken into consideration.

FRIGHTFUL SCENE AT THE CIRCUS.

One of Hagenback's Lions Tries to Eat Professor Darling.

There was a scene at Hagenback's circus that nearly precipitated a panic. Professor Darling gives daily exhibitions of his remarkable control of five big lions, and in driving three of them to a chariot one of the trace chains snapped. The big Pasha was in a bad humor and he sprang at his trainer. In the cage, which incloses the whole arena, was also the professor's big blood hound, and he sprang at the lion, thus saving his master. Three of the lions then got into a fight, while Pasha, having shaken off the dog, sprang at Darling again.

This time he fastened on the professor's hip, and tore a piece out of his trousers, also breaking the skin and drawing blood, making the situation much more perilous. Darling tore himself away and faced the lion. The cane with which he punishes the brutes was on the other side of the cage, and the enraged lion was between it and the professor. Again the lion sprang, but the professor lodged him and gained his cane. All this time there was intense excitement in the audience, and Mrs. Darling, just outside the cage, was imploring her husband to escape.

But it was a fight for supremacy. If Darling failed in reducing the brutes to submission he could never face them again. With stick in hand he ordered the lions out of the cage. All obeyed except Pasha. The professor strode up to him and as he was about to spring struck him a sharp blow and followed it up with a severe whipping. The lion was cowed, And after he had been put through his paces, ending with the professor standing on his neck, the scene ended, and the audience cheered to the echo.

SIX NATION INDIANS ARRIVE

And the Grandson of an Aborigine Who Treated with Washington.

The Quackuhl Indians from the island of Vancouver, British Columbia, and the Penobscot Indians from Maine, camped in their tepees on the lawn surrounding the south pond, have been supplemented by the arrival of the first party of Six Nation Indians from their reservation in the state of New York. The first to arrive was Solomon O'Bail, a grandson of Corn Planter, who treated with General Washington and received a medal from the first president. Solomon, who is 83 years old, looked around the bark council house, expressed his approval in good English and said it reminded him of old times, but suggested that the roof needed patching to keep out the rain.

In the party was also Deer Foot, a famous long distance runner in his day. Twenty years ago he ran 11½ miles and 99 yards in 1 hour, and 10 miles in 52 minutes 22 seconds. Those are records which have never been broken. A grandson of Chief Red Jacket from the Cattaraugus reservation will be here in a few days. Chief Jack, of the Tuscaroras, a delegate to the grand council; Chief Silver Heels, of the Senacas; four squaws, one maiden and one young brave made up the rest of the party, all dressed like good Americans. When they are settled in their camp the women will be dressed in buckskins ornamented with porcupine quills and bead work and make baskets and bead ornaments. Their teepes and stockaded round house are constructed of bark and elm poles, just as the Six Nation tribes lived when Columbus landed on American soil.

The national commission resumed business, holding a protracted secret session. As a western member expressed it, "There was a good big family row, and it is nobody's business but our own." Director General Davis was summoned to appear before the commission and explain the modus operandi of conducting his end of the exposition. Secret session with the commission is a good deal like secret session with the United States senate. The business done leaks out. The commissioners adopted a resolution declaring that the rate of 75 cents an hour for a wheel chair and guide was exorbitant; that 60 cents should be the maximum rate with attendant, and pro rata, without an attendant. The whole matter was referred to the judiciary committee. Then after a warm debate the Sunday question was postponed to next Tuesday.

The council of Administration was in session most of the day trying to fix a minimum of daily expenditure for the exposition. Leaving out the bureau of music the council figured that the exposition could not be run short of $16,000 a day and the Columbian guards must be kept down to 1,500. This was the decision of the council. It is impossible to reduce the daily operating expenses of the fair to $13,000, in spite of the hard work in that direction by the council.

Rev. John T. James, of Virginia, who smashed the whisky exhibit of Sir John Powers in the Agricultural building on the Fourth of July, get off easily in Justice Porter's court. The prisoner refused to make any statement and acted so queerly that the justice allowed the charge of malicious mischief to be changed to that of disorderly conduct. He then fined the reverend vandal $25. Mr. James declared he would go to jail and pose as a martyr of the demon drink. Then the justice remitted the fine.

Notes of the Exposition.

Interest in the music congress centered about hall 3 of the Art Institute, where the women musicians began their meeting. The hall was crowded to the doors when Mrs. George F. Carpenter called the congress to order and in a brief address welcomed the visitors. The Amateur Editors continued their discussions.

The steamship Tuscarora, of the Lehigh Valley line, reached here today from Buffalo with Governor Pattison, Chairman Harrity, of the Democratic national committee, and other distinguished Pennsylvanians on board.

"Our National Emblem" in letters of bark over the front of a pavillion tells the story of the booth which was opened on the Fourth in the Woman's building. Misses Alma Turner, of Fort Worth, Tex., and Emma Tobin, of Austin, Tex., are in charge, and here everybody is invited to cast a vote for a national flower. Arrangements are making to receive votes in the different state buildings also.

The paid attendance yesterday dropped to 79,224.

OPINIONS ON THE GEARY LAW.

Justice Gray Sustains It and Justice Fuller Condemns.

WASHINGTON, July 6.—The opinion of Justice Gray giving the decision of the majority of the supreme court sustaining the Geary anti-Chinese law and those of Chief Justice Fuller and Justice Brewer, dissenting, have been filed. Justice Gray held that it is in the power of the congess to do as it pleases with the matter of admission or deportation of aliens and that it can make any conditions it chooses, regardless of treaties, and that these are not reviewable by the court.

Justice Fuller says that the claim that an alien can be made subject to the powers asserted against his treaty rights is to say what is not recognized by fundamental law; that the law directs the performance of a judicial function inflicting particular punishment, without a judicial trial; that it is in effect a legislative sentence of banishment, and assuch absolutely void.

Cholera Deaths in Southern France.

How about Mrs. Columbus?

Now Christopher went on discoveries bent,
And captured more honors than ever were meant
For mortal to wear.

But Mrs. Columbus, I think—yes, I know it,
Is pining for notice from rhymster or poet,
Let her have her share.

While Christopher studied a dingy old chart,
She doubtless did washing—a heroine's part,
And dreamed of the "Fair."

While Christopher's life was so brightened by hope,
Her task would have lightened if **Santa Claus Soap**
Had only been there.

She might have had time to be famous herself,
If she'd but had aid from this jolly old elf.
Yes Santa Claus Soap, the good housekeepers say
Is the choicest of soaps manufactured to-day.

HOT AT HONOLULU.

Alleged Discovery of a Dynamite Conspiracy.

SPRECKLES GETS A GORY MESSAGE

And Calls for Protection, Which Is Granted—Annexers Organize for a Butchery if the Antis Make a Move—Blount Said to Be One of the Marked Men—Three Royalists Arrested by the Provisional Government.

SAN FRANCISCO, July 6.—Advices from Honolulu to June 28, are as follows: Developments of the past six days have been three arrests for conspiracy to overthrow the provisional government; a threat against the life of Claus Spreckels and organization of a society within the ranks of the annexationists for the shooting down of certain royalists in event of any open attack upon the present government. Claus Spreckels found on his gate a few days ago a placard ornamented with skull and cross bonds and bearing the inscription "Gold and silver will not stop lead." He laid the matter before Minister Blount and the latter forwarded Spreckel's statement to the provisional government.

Claims Discovery of a Plot.

The names of the persons arrested for conspiracy are: T. B. Walker, E. C. Cryck, and Archibald Livelain. They are all English, and the British consul was disposed to interfere in their behalf, but dropped the matter when informed of the nature of the charges against them. The government claims to have evidence against these men showing that they were forming a plot to blow up the government buildings and then shoot down the annexationists when they should rush to the scene. A large number of other persons are being watched by the authorities.

Organized for a Slaughter.

Six hundred or 700 annexationists have formed a "citizens' reserve." They are armed with rifles and have selected certain prominent supporters of the ex-queen whose names are known and marked them for slaughter in the event of a royalist outbreak. A member of this organization gives a list of names of those marked for assassination and says that in addition to prominent Hawaiians it included Claus Spreckels and Minister Blount in case they interfere in any fight that may occur.

Spreckels To Be Protected.

As soon as the government received from Minister Blount Claus Spreckels' statement in regard to the threatening placard found on his gate steps were taken to protect Spreckels from further annoyance. The annexationists are elated over what they believe to be a reprimand to Minister Blount by the state department at Washington on account of his action in the Nordhoff case. It is reported here that Blount has unofficially notified the government of Secretary Gresham's ruling in the case.

Blount Quite Willing to Leave.

One member of the provisional cabinet practically admits that this story is reliable, but President Dole says that he knows nothing about it. The news of the appointment of Judge Sneed as minister to Hawaii has arrived here. Minister Blount was delighted that his successor had been appointed. Blount is making calculations to sail for San Francisco July 19.

ENDEAVORERS AT MONTREAL.

American Delegates Cheer a British Soldier—Prayer Meetings.

MONTREAL, July 6.—The magnates of the Christian Endeavor convention are all here ready to begin work. The board of trustees held a five hours' session to consider preliminaries, but did not take up the question of the next place of meeting. As the delegates from Wisconsin and Michigan werd en route to the city they would alight at each station and sing hymns. "God Save the Queen" was called for, but they didn't know the words.

At one station, however, they cheered a British redcoat, and the soldier braced himself and acknowledged the compliment. La Minerve, an Ultramontane paper, extends welcome to the Christian Endeavor society, and hopes all its members will return to their homes satisfied with Catholic Montreal. Prayer meetings were held in five of the city churches conducted by Rev. J. W. Chapman, of Albany, N. Y.; Rev. Theo W. Cyler, of Brooklyn, and other prominent delegates. There were packed audiences everywhere.

Student Riots at Paris.

PARIS, July 6.—Rioting has hardly stopped in this city since it began, but at this writing the streets are deserted. The troops and police used pistol and sword in attacking the rioters and a number have been wounded, though, strange to say no deaths are reported except that of one policeman who was, it is believed, thrown into the Seine and drowned by the students. It is said that two other officers met their deaths in the same way.

Wedding Honors from the Queen.

LONDON, July 6.—The duke of York was made a knight of the most ancient and most noble order of the Thistle by Queen Victoria. Dr. William H. Broadbent, the physician who attended the duke of York during his attack of typhoid fever some time ago, also came in for recognition by her majesty, who created him a baronet.

Small Crop of Grain in the Northwest.

ST. PAUL, July 6.—Reports to the signal service, the railway companies and the elevators indicate that the crop of small grains will be the smallest in six years. The outlook based on these reports is for about half a crop for South Dakota and about two-thirds of a crop for Minnesota and North Dakota.

Will Save the Merchants' Profits.

WASHINGTON, July 6.—Secretary Morton has instructed Enos Harnden, of Michigan, recently appointed purchasing agent of the agricultural department, to hereafter buy the seed for the use of the department direct from the grower, thereby saving the profits that have accrued to the middlemen.

The Captive Balloon Doesn't Pay.

CHICAGO, July 6.—Mathew J. Swatek, one of the stockholders in the World's Fair Captive Balloon company, has filed a bill in the circuit court asking that a receiver for the company be appointed. Judge Collins appointed C. R. Mason to take charge of the company's affairs.

An Old Railway Engineer Dead.

MEADVILLE, Pa., July 6.—Joseph York, one of the oldest railway engineers in the United States, died at his home here, aged 75. He had been in charge of the Baltimore and Ohio railroad exhibit at the World's fair up to within a few days of his death.

ABBREVIATED TELEGRAMS.

The Omaha and South Texas company, which built a manufacturing suburb to Houston, Tex., has assigned, with liabilities of $400,000.

The body of William W. Ward, proprietor of Ward's Private bank at Forestville, N. Y., was found in the bank vault with a bullet hole through the head. It is believed to be a case of suicide. The bank has suspended.

The Argentine cabinet has announced its intention of resigning. President Pena has so far failed to find any one willing to form a new ministry, and he may have to retire himself.

A SAVAGE CANARY.

One of the Very Latest of Wild Stories About Well Known Animals.

So many stories have been told recently of battles between tigers and snakes, wildcats and elephants, eagles and alligators and codfish and wild hogs that the following accurate description of an encounter between a tomcat and a canary bird cannot fail to be interesting:

The tomcat and the canary were the property of an animal dealer on the west side who has long had a reputation for veracity. The canary was noted for its fierceness. It is a female bird about 3 years old with bright yellow feathering. The tomcat is quite white, with four legs, and weighs—or rather weighed—about 12 pounds.

During the morning it was noticed that the canary seemed unusually savage. She paced up and down her cage in a great rage, gnashing her teeth and glaring at the poor cat, toward whom it turned out she had developed a fierce antipathy.

The keeper secured the door of the cage, as he thought, firmly, but during a paroxysm of temper the canary smashed the fastening and was free.

What a moment! The unfortunate tomcat gave a cry of terror and looked around for some means of escape, but there was none, the door of the room in which the carnivorous animals were kept being locked.

The proprietor of the menagerie could do nothing. Spellbound he watched the uneven contest, fearing all the time that the fury of the canary bird would be expended on himself.

With a piteous moan the wretched tomcat felt the talons of the canary bird sink into his head. He raised himself and tried to fight her off, but the bird parried his every blow and fiercely pecked at his eyes.

Once the cat seized the bird in his paw, but she got away from him in a moment with the loss of only one feather. She returned to the charge and rendered one of the cat's eyes blind with her sharp bill.

The fight had lasted five minutes, and the cat had all the worst of it. He was panting, and every now and then rolled over exhausted, uttering pitiful cries. Though he was valued at $100, the keeper of the menagerie, who was armed with a sword and a shotgun, did not dare to interfere to save him. The blood of the canary was up, and she meant to slay the cat.

It was not long before the awful work was accomplished. The bird by an adroit movement common to canaries when in conflict with quadrupeds rendered the poor Thomas cat quite blind. Then, at her leisure, with a series of fierce jabs, she penetrated his brain, and he rolled over completely dead.

The boss was trembling for his own safety, but it now seemed that the savage instincts of the canary had been satisfied, for with a jaunty air she regained her cage and began to warble a song of victory.

It meant life or death to shut the door, but the brave boss crept courageously up to the cage and succeeded in accomplishing this feat. Then he ran out into the street and fainted. The nerve pressure had been too great for him.—New York Herald.

The Value of a Little Thing.

In a little volume of lectures by Henry Irving, just published, is a story which illustrates the actor's motto, "While trifles make perfection perfection is no trifle." "This lesson was enjoined on me when I was a very young man," he says, "by that remarkable actress, Charlotte Cushman. I remember that when she played Meg Merrilies I was cast for Henry Bertram. It was my duty to give Meg Merrilies a piece of money, and I did it after the traditional fashion of handing her a large purse full of coin of the realm, in the shape of broken crockery, which was generally used in financial transactions on the stage. But after the play Miss Cushman said to me: 'Instead of giving me that purse, don't you think it would have been much more natural if you had taken a number of coins from your pocket and given me the smallest? That is the way one gives alms to a beggar, and it would have added to the realism of the scene.' I have never forgotten that lesson."

Noah Left the Ark on April 29.

Saturday, April 29, is the day marked in all ancient calendars as being the one on which Noah and his family quitted the ark after having withstood the siege of the great deluge. The day is marked in all ancient calendars, especially British, as egressus Noae de arca; the 17th of March, the day upon which Noah, his family and their great floating collection of natural history specimens set sail, being designated in the same class of early printed literature as introitus Noae in arca, "the day of Noah's entrance into the ark." Why these days were chosen as the ones upon which the supposed embarkation and debarkation were made are enigmas which the antiquarians have not yet solved.—St. Louis Republic.

MYSTERIES!

The Nervous System the Seat of Life and Mind. Recent Wonderful Discoveries.

No mystery has ever compared with that of human life. It has been the leading subject of professional research and study in all ages. But notwithstanding this fact it is not generally known that the seat of life is located in the upper part of the spinal cord, near the base of the brain, and so sensitive is this portion of the nervous system that even the prick of a needle will cause instant death.

Recent discoveries have demonstrated that all the organs of the body are under the control of the nerve centers, located in or near the base of the brain, and that when these are deranged the organs which they supply with nerve fluid are also deranged. When it is remembered that a serious injury to the spinal cord will cause paralysis of the body below the injured point, because the nerve force is prevented by the injury from reaching the paralyzed portion, it will be understood how the derangement of the nerve centers will cause the derangement of the various organs which they supply with nerve force.

Two-thirds of chronic diseases are due to the imperfect action of the nerve centers at the base of the brain, not from a derangement primarily originating in the organ itself. The great mistake of physicians in treating these diseases is that they treat the organ rather than the nerve centers which are the cause of the trouble.

DR. FRANKLIN MILES, the celebrated specialist, has profoundly studied this subject for over 20 years, and has made many important discoveries in connection with it, chief among them being the facts contained in the above statement, and that the ordinary methods of treatment are wrong. All headache, dizziness, dullness, confusion, pressure, blues, mania, melancholy, insanity, epilepsy, St. Vitus dance, etc., are nervous diseases no matter how caused. The wonderful success of Dr. Miles' Restorative Nervine is due to the fact that it is based on the foregoing principle.

DR. MILES' RESTORATIVE NERVINE is sold by all druggists on a positive guarantee, or sent direct by DR. MILES MEDICAL CO., Elkhart, Ind., on receipt of price, $1 per bottle, six bottles for $5, express prepaid. It contains neither opiates nor dangerous drugs.

—Mrs. Walter Little came home from Chicago last night.

—The Dixon Camera club hold a meeting tomorrow evening.

—E. H. Clopper and W. G. Atkins were down from Polo last night.

—Mrs. A. L. Heckman and daughter Cecil spent Tuesday in Franklin Grove.

—C. C. Godfrey, Will Godfrey and Steve Austin spent Tuesday at Castle Rock.

—Messrs. Edward and Fred Donahue and Harry Gage returned to Chicago yesterday.

—Herman Mehring has commenced the erection of a residence on Jackson avenue for Pat Henchy.

—I. D. Appleford is having a patent stone walk made at his home in North Dixon.

—Mr. and Mrs. H. J. Scott came home from Chicago last night accompanied by a lady friend.

—State Senator Homer F. Aspinwall of Freeport had his left hand blown off on the night of the Fourth by a premature explosion of fireworks.

—While J. W. Kelley is at work placing a patent stone walk at the I. D. Appleford home, on North Crawford avenue, he would like other orders in that vicinity, as his tools are there in readiness.

—Mrs. W. B. Sterling, nee Olive Underwood, is visiting in Sterling. Her husband gave a Fourth of July talk at Yankton, S. Dakoka, Tuesday, and will speak at the dedication of the S. Dakota Building at the World's Fair on the 12th inst.

—In a business letter from J. L. Gruver, now at Anthon, Ia., addressed to THE TELEGRAPH, occurs the following: "Small grain is short; corn looks well; but we need rain. We have a fine country here, and there is a good place here for a bank and general store. We have a large territory to supply a good opening for a good man."

—During the Fourth of July celebration at Scales Mound, JoDavis county, on the Fourth. Richard Bell, aged 72 years, and a young man engaged in a footrace. They had proceeded but a littly way when Bell dropped dead. He was one of the old residents of Jo Daviess county, well known, and highly respected.

—J. W. Kelley who has come to this city from Sterling to reside, is building many handsome stone walks. He has purchased from O'Hair, of Sterling, and Michael Jordan, of this city all patents and rights to place walks in Dixon and is prepared to buy all patents covering the work he is doing. It is hoped that the city council will tomorrow evening take proper action towards accepting propositions to be made by private citizens to have this excellent walk placed on the streets.

—The importance of not only cultivating presence of mind in emergencies, but of teaching even children the proper methods of procedure in case of accidents, was well illustrated in Rockford one day last week. Elsie Svedeberg, a little 14 year-old Swede girl, undertook to split some wood, and embedded the sharp ax in her foot, severing the large artery in the instep, from which the blood gushed in a torrent. The child sank to the ground terrified, and would undoubtedly have bled to death before help could arrive had not a little playmate happened to be near. With rare presence of mind the companion of the injured girl bound the limb with a handkerchief above the wound and then twisted it until the compression checked the flow of blood till the arrival of the surgeon.

—Farmers often make a great mistake in holding grain for higher prices; some paying interest on borrowed money in order to carry grain from one season to another. Here from an enchange is a pointer on this subject: A scientist has figured out that wheat from the time it is threshed will shrink two quarts to the bushel, or six per cent. in six months, even under the most favorable circumstances. Hence it follows that eighty-four cents per bushel for wheat when threshed in August is as good as one dollar the following February. Corn shrinks much more from the time it is husked. One hundred bushels of ears as they come from the field in November will be reduced to not far from eighty. So forty cents a bushel for corn in the ear as it comes from the field is as good as fifty cents the next March. Potatoes shrink so much that there is little doubt that between October and the next spring the loss to the owner who holds them will not be much less than twenty five per cent.

—The Fourth of July celebration at Franklin Grove was one long to be remembered, by those who assisted and attended, as an interesting and pleasing occasion. The day was a favorable one. The principal attraction in the morning was the trade procession headed by the Polo band, whose gold and scarlet uniforms lent an extra charm to their sweet music. Conspicuous among this was Sol Sunday's harvester, or agricultural implement display. The scalawags were greatly enjoyed by the "small fry," and a wagon gaily draped in the National colors, holding over forty handsome maidens, represented Columbia and the states, after which the crowd retired to the camp grounds and were delightfully entertained while listening to several National songs, band music and a most excellent speech eloquently delivered by Rev. Hayne, of Chicago. In the afternoon a large concourse of people from far and near assembled at the Hussey race tract and witnessed some fine racing. "Shamrock," owned by C. D. Hussey, seemed to be the favorite horse in the free for all race, but through either well respected rules or the accidental mishap occasioned probably by the enthusiastic cheers from the crowd, Billy Stewart's gay sorrel won first money. "Granger" from Ashton, easily won among the gentleman drivers, and in the colt race, Knapp's bay came out victorious. Prince Albert traveled an exhibition mile in 2:41 that was pleasing to witness. Foot, egg and wheel barrow races were on the program order. The Polo band boys were very accommodating and generous, furnishing an appropriate variety of good music during the whole day. In the evening the streets were crowded with spectators interested in the fine display of fireworks that ended a day of great enjoyment.

—On account of the absence of a number of the Henderson Band boys no concert will be given in Court House Park this evening.

—E. Edelstein wishes to thank firemen and citizens for assistance rendered him in the saving of his property from the fire Tuesday evening.

—Mesdames. J. F. Sanford, R. S. Farrand, Edmund Camp and A. C. Warner drove to Grand Detour yesterday and partook of a sumptuous supper at the Shef. field House.

—A notice was served on H. L. Coffey by C. L. Sheldon, Attorney for defendant in the case of Shafer vs. Page, Chancery, to dissolve the injunction granted some days ago against Page. The parties reside at Penrose.

—Miss May Campbell, who for the past eight years has served customers at the S. G. Austin & Co. dry goods store in an ever pleasant manner, has retired from the establishment on account of ill health. It is hoped that a rest will do her good.

—Speaking of Jack The Peeper; Palmyra has 'em. Some young men out there have been prowling around the Elwood Hughes and other residences and peeking through the windows at night about the time the female servants are supposed to be preparing for bed. The boys had better quit, for their discovery would cause them a lifetime of shame and mortification when old enough to appreciate the meanness of the act.

BURGLARS—WE HAVE 'EM, OR RATHER THEY HAVE US.

When the Josiah Howell family arose this morning they discovered evidence of visitors during the night at their home, on Peoria avenue. Visitors who did not knock for admittance or ring the front door bell, but pried open a back window and crawled in. Mr. Howell's room on the first floor was visited and his pants carried into the dining room and rifled. One dollar and fifteen cents was all the money they found. Robert Howell received a quiet call in his bed-room up stairs, and he misses a few vauables and wearing apparel. Our police have been busy today chasing tramps with bundles down the railroad track and through the woods.

The Gold Cure.

The formula of what is termed the Gold Cure for inebriation is kept as nearly secret as possible in the various institutes throughout the country. The following, which seems to bear the stamp of genuineness, was clipped from the columns of "Signs of the Times" and sent us for publication by a subscriber. If no danger attends the administration of this compound it certainly ought to be generally known, that those who are by financial circumstances deprived of treatment at a regular gold cure institute, may treat themselves at home. The clipping sent us is a follows:

So much has been written regarding the Gold Cure for drunkenness that we all know of the great good accomplished. My husband, who was a wreck for years, took treatment at an institute over three years ago, and has no desire to taste liquor since, but it cost us over $100. I have a brother in-law, a chemist, a slave to drink, but too poor to take treatment; he analyzed the medicine my husband brought home, and cured himself. Four of our acquaintances got the prescription and cured themselves. The following is the prescription: Electrofied gold, 15 grains; muriate of ammonia, 7½ grains; comp. fluid extract of cinchona, 4 grains; fluid extract of coca 1½ ounces; glycerine, 1½ ounces; nitrate of strychnia, 1 grain; distilled water 1½ ounces. Take a teaspoonful every two hours when awake for two or three weeks. After the second or third day, there will be no desire for drink. Medicine to effect a cure will not cost over $3.50. I think every paper should help the poor by publishing this prescription.

Chicago, Ill MRS. WM. CARTER.

From Palmyra.

Mrs. Emma Zollinger after a pleasant visit with friends returned Monday to her home in Ogden, Iowa, her neice, Mrs. Gus Demorest accompanied her.

Mrs. Gertie Russel spent Sunday in Rock Falls.

Mr. and Mrs. Wilard Mohler of Carrol Iow, on their way to the Fair stopped off a few days with the latters aunt, Mrs. A. M. Lawton.

Mr. and Mrs Elwood Hughes accompanied by the Rev. Dr. Dixum and wife, have returned from a visit with the formers son, Ed., in Clinton, Iowa. Mrs. Hughes upon her return, unfortunately lost a very nice black silk hand bag between Dixon and home.

Mrs. Kittie Ruth, of the Elgin watch factory is spending a few days at Mrs. A M. Lawtons. This factory gives every Saturday to its empolye's for the purpose of attending the World's Fair.

Most of our farmers will celebrate the Fourth in their fields.

Master Frank Rhodes is visiting at the Eastwood residence.

A meeting of the Palmyra Sunday School Institue was held at Prairieville last Sunday evening, owing to a misunderstanding as to the attendance was not very large. Election of officers for the coming year took place, which resulted as follows: President, John McCleary; Vice President, Anson Thummel; Secretary, Carrie L. Swigart; Program committee, Allen Beade, Austin Powers, and Miles Bryan. Some interesting remarks were made by Messrs. Klosterman, Manpahan and Hostetter of Sterling and the Rev. Dr. Dimm, who closed with a very instructive talk, which was listened too with much interest. Another institute will probably be held in the near future

There is one department in our house that
Requires the Attention of Ladies.

Of course we mean Ladies who have boys to clothe. The story we have to tell about this department would more than fill our space in this paper; and for that reason we must refrain from going into detail.

The Facts are These:—We are overstocked in this department; and knowing every lady has a keen eye for a good bargain, we have resolved to reduce this stock at all hazards; and if you will come
